PERMANENT & TEMPORARY RECRUITMENT - LET'S WORK TOGETHER!

OUR PERSONALISED SERVICE DELIVERS THE BEST RESULTS - FOR YOUR ORGANISATION

PERMANENT RECRUITMENT - WE HAVE THE RIGHT CANDIDATE!

TEMP-TEAM will give you the best selection of applicants to choose from. When outsourcing your permanent selection to TEMP-TEAM our close network of offices ensures that your vacancy will reach candidates from a much broader field.

Attracting the right candidates is the key to the success of your business.

You will benefit from our comprehensive database ranging from shop-floor and blue collar workers to operational and management personnel across all sectors.

Your time can be utilised in the most cost effective way when you use our trained consultants to interview and reference check.

TEMPORARY RECRUITMENT - RESPONDING TO YOUR NEEDS FAST

Whether you need one person for one day - or an entire team for a long-term project - we can help you. Requirements can arise suddenly due to unexpected peaks in your business. We are able to respond to your needs quickly.

We have specialist consultants covering many different disciplines.

Temporary appointments can form an excellent trial period for both candidate and company and lead to a permanent contract of employment.

To ensure both a skill and personality match, all of our temporary staff are interviewed; reference checked and tested before you meet them.

EXPERIENCE A REAL DIFFERENCE

What matters is finding people who work well together, personality is often as important as professional qualifications.

Through close personal dialogue and familiarisation with company cultures we endeavour to deliver a trouble free and effective selection process enabling you to focus on your core business.

We build our business on a strategy of close contact with our clients, temporary staff and candidates forging strong relationships which benefit all parties and ensure long-term business partnerships.

If, like us, you believe in an honest, face-to-face, personal service, let's work together.

USER FRIENDLY - ENVIRONMENTALLY FRIENDLY

We strive to continuously improve our systems, working with our customers to provide easy, workable solutions and where possible, a paper free environment. The following processes can be implemented electronically:

- Weekly timesheets
- Temporary worker payslips
- Invoices, statements and remittances
